

**Monroe Doctrine Fortified by League, Brazil Is Told.**  
**TWO JANEIRO, Oct. 1.**—Recommendation that the Brazilian Chamber of Deputies accept the covenant of the League of Nations is contained in a report to the Congressional Commission on Diplomacy.

The report declares the League principles "do not offend the sovereign prerogatives of any nation." Of the Monroe Doctrine, the report says: "The doctrine of the balance of power in Europe was killed by the recognition in the covenant of the principle of the equality of nations, while the Monroe Doctrine was strengthened."

## LABOR HEADS SEEK TO DICTATE LAWS, SHERMAN ASSERTS

Taxation of Entire Country to Benefit Rail Unions Preposterous, He Says.

United States Senator Sherman of Illinois was the principal speaker last night at a meeting of the Traffic Club, at the Waldorf-Astoria. His subject was "The Labor Unions and the Government."

Senator Sherman said the railway problems can be solved only by returning the railroads to their private owners, subject to regulation to protect the public against unreasonable rates, unjust discrimination, and to secure a fair service for the traffic needs of the country. He said Government ownership is a huge demonstrated failure for everybody but the heads of the unions that demand all the benefits of the ownership of the property without assuming any of its burdens.

"It is rapidly becoming a question of whether the American people will have a Government of the people or of groups or classes of the people,"

he said. "The heads of labor unions intend to try to govern the United States."

"It is an impudent proposal to tax a hundred million people for the benefit of two million employees of the railroads. It can be well understood why the head of unionized labor desires to control Congress. It is a most philanthropic scheme for 2,000,000 men to become their own employers, to manage somebody else's property and have the success of their undertaking guaranteed by the remainder of the public."

"In addition to the foregoing benefits conferred upon an indigent public the sponsors for the scheme may in effect: 'If you do not elect a Congress that will permit us to dictate legislation or if the present Congress ignores our demands we will stop every train in the United States.'"

"This is announcing the nullification of a law before it is enacted. It is anticipated revolution. I cannot believe organized labor as a body is in sympathy with such a declaration. If it is, let the issue be joined. Let it be ascertained now whether a few million operating an essential industry or carrier system may deliver law to all the remainder of the public."

## ARMY PERISCOPES ON SALE.

WASHINGTON, Oct. 1.—The Ordnance Department of the army wants to sell 160,000 rifle periscopes which have been declared surplus. The periscopes were used by the A. E. F. in trench warfare. The men attached them to their rifles, held them above the tops of the trenches and could see the enemy lines without being seen themselves or exposed to fire.

Novelty dealers and boys' organizations also are being interested in the device. It is believed the periscopes would appeal to children as a toy, or to such organizations as the Boy Scouts, to be used in field exercises.

## HAMILTON BEACH IS ON THE MAP IN CAPITAL LETTERS

The next time table the Long Island Railroad gets out for its Rockaway

Beach-and-Intermediate-Stations service will look to residents of one hamlet on the line something like this:

newark  
 longislandcity  
 ozonepark  
 aqueduct  
 howardbeach  
 HAMILTON BEACH  
 roosevelt  
 the rampt  
 broadchannel  
 Rockaway Beach  
 ROCKAWAY PARK  
 Hamilton Beach, close by Jamaica Bay, will dedicate its first railroad station in about two weeks. Hereto-

fore the Hamiltonian has used the Howard Beach station.

The villagers wanted to give their station some such name as Hamilton-on-the-Bay but the railroad people objected that there wouldn't be room for all that on the time table. How about abbreviating it? they suggested; but Hamilton folk, visualizing "Ham-on-the-Bay," knew that quicker's seat Goose Creek and The Rampt would be calling their charming settlement Ham Omelet. So they said, No, thank you, they reckoned they'd be better pleased with Hamilton Beach.

The Post Office Department has O. K'd the name. The Federal Railroad Administration has authorized

the Long Island R. R. to spend \$7,000 for the new deppes and yesterday \$40 residents of Hamilton Beach forwarded to Public Service Commissioner Nixon a certified check for \$1,500 as the town's contribution to the building fund.

## Gillette— for Men Who Value Their Time

No Stropping—No Honing

THE man who has work to do in the world has little time to waste in stropping and honing a razor. There is No Stropping—No Honing with the Gillette—the razor that is always ready for business.

The Gillette Blade has the most effective shaving edge ever developed. Made of the finest grade of high carbon steel scientifically hardened and tempered, it is sharpened at the factory and comes to you ready for instant service.

It is the only safety razor blade that is flexible—that can be adjusted to any type of beard by a slight turn of the handle.

The three-minute Gillette shave—with No Stropping—No Honing—saves time every morning for millions of men who value it.

GILLETTE SAFETY RAZOR COMPANY BOSTON

## Gillette SAFETY RAZOR

A World's Series is a contest of "nerves" and the team that wins usually has but little more skill than the other fellows, but a decided edge on "nerves."

Nothing can be found to steady "nerves" better than Adams Black Jack Gum. Many of the great players rely on an old friend like Adams Black Jack for that extra little steadiness which a package of this delicious confection provides.
